DETAILED ACTION

EXAMINER'S AMENDMENT

1. An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on 7/20/2006, Mr. Robert Walker (Reg. No. 30,700) requested an extension of time for 1 MONTH(S) and authorized the Director to charge Deposit Account No. 05-0225 the required fee of \$120 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

IN THE DRAWINGS:

The following changes to the drawings have been approved by the examiner and agreed upon by applicant:

Figure 1 of the instant application was amended to show a registration feature, which is a line marked on the alignment device and is identified by reference numeral 23.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

IN THE SPECIFICATION:

The paragraph beginning on line 4 of page 11 has been amended as follows:

-- While the above embodiments have been described in reference to a specific hardware embodiment a person of skill in the art will readily appreciate that there are many alternatives are possible without departing from the scope of the invention. For example while a registration plate has been described the registration features may also be implemented using a proximity sensor for detecting the edge of the sheet and adapted to present feedback to the operator by visual or other means. The proximity sensor may be optical, a contact switch, or any other type known in the art. The registration feature may also be a simple line 23 marked on the support surface, a laser beam projecting across the support surface or a lip or groove formed in the support surface. --

IN THE CLAIMS:

Claim 10 has been cancelled.

In claim 11, line 8 "printer" has been replaced with -- alignment device --.

Claim 13 has been cancelled.
